

Galapagos Land Tour

December 16 - 20, 2022

Blue Green Expeditions is adding a land tour at the end of our scuba trip! The Aqua has a special permit to do both diving and land excursions in Galapagos. Those who book the optional land tour with us will be able to stay on the boat following the diving portion and continue the land excursions for another 4 nights/5 days. This makes the logistics super easy and ensures your land tours will be with a nice small group. The Galapagos Islands are one of the most unique islands in the world and a UNESCO World Heritage Site. The unique volcanic islands host a plethora of wildlife and fauna and were the inspiration for Charles Darwin's Theory of Evolution. The animals on the Galapagos Islands are incredibly tame thanks to a lack of natural predators. You can expect to get up close and personal to many different species of animals and birds such as giant tortoises, sea lions, blue footed boobies, marine iguanas and many others. We hope you will join us on this exciting adventure!

Pricing:

- \$2400 USD per person, based on double occupancy.
 - This includes all meals, double occupancy accommodations on the Aqua, land excursions and transfers to airport.
 - If you are participating in the Galapagos diving expedition just prior to this trip your domestic return to Guayaquil is included
- A non-refundable deposit of \$500 USD per person is required to hold your spot.
- The balance is due August 5, 2022
