

God's Pocket

October 20 - 27, 2023

Blue Green Expeditions is headed to the best diving in British Columbia and potentially the best cold-water diving in the world! We start our trip in Vancouver then venture to God's Pocket Dive Resort for some amazing truly spectacular diving. God's Pocket is pristine, remote, with some of the most amazing scenery in the world. Here we will get to see giant Pacific octopuses (GPO), nudibranchs, wolf eels, rockfish, anemones, shrimp, and endless amounts of underwater marine life. Top of the bucket list is the GPO and God's Pocket rarely disappoints. Another favorite is the Puget Sound King Crab and finding one on an endless wall covered in layers and layers of life is breathtaking. This is one amazing trip that you don't want to miss!

God's Pocket has some of the best 'little things' that make this dive resort a huge thing. Heated cabin floors, a drysuit room with an undergarment drying/heating closet, some of the best food served morning, noon, and night as well as homemade snacks, coffee, and hot chocolate after every dive. And the best feature rarely found; an elevator that will whisk you back on the boat in 10 seconds with zero effort on your part. All part of a trip you'll never forget!
