

Hornby Island and God's Pocket

October 21 - 31, 2020

Blue Green Expeditions is headed to the best diving in British Columbia and in our opinion the best cold water diving in the world! We start our trip in Vancouver then head out to Hornby Island for four nights and three days of diving. Hornby is home to huge colonies of Steller Sea Lions! These 500lb Sea Lions are very curious and they will be hanging close to the divers for some nice photo opportunities! We then venture to Gods Pocket dive resort for 5 nights and 4 days of diving. Diving God's Pocket is pristine, remote diving with some of the most amazing scenery in the world. Here we will get to see giant pacific octopus, nudibranchs, wolf eels, rockfish, anemones, shrimp and all sorts of underwater marine life. This is one amazing trip that you don't want to miss!

Your trip Includes:

- Hotel in Vancouver on October 21, 2020
- All transportation to and from Vancouver
