

Iceland

September 5 - 15, 2021

Join Blue Green Expeditions in Iceland!! You will get to dive in one of the most unique dive sites on the planet, the Silfra fissure! Iceland has it all. From unique dive sites to amazing scenery, we will hike, dive, explore, soak in hot springs, visit an active volcano, and enjoy the local culture. In Silfra, we will dive between two continental plates in the purest water in the world with up to 100m visibility. We will even have the chance to do a night dive in Silfra! We will explore geothermal lakes and rivers and dive hydrothermal vents all while enjoying amazing top side scenery, fantastic

food and the unique Icelandic culture. This unique diving tour of Iceland combines dazzling underwater experiences and breathtaking land excursions. Our explorations will take us from the capital of Reykjavik where we will embark on the Golden Circle tour, exploring some of Iceland's most amazing waterfalls and geothermal areas. From there we will take the South Coast tour and see more incredible scenery, take a Glacier hike, and visit Black beach. We will continue along the ring road to the eastern part of

Iceland experiencing picturesque glacial lagoons, amazing waterfalls and pristine landscapes. As we approach the north, we will see geysers, look for trolls, and enjoy a spa visit. And then there is more diving! At Strytan Dive Center, Erlanger will share with us his favorite dive sites, rarely shown to outsiders, as well as have the opportunity to dive a hydro thermal vent, see the chimney and photograph the incredible life attracted to this ocean oasis. In the northern reaches around Akureyi we will also get a chance to dive on a shipwreck and do some exploratory diving in the Fjord. If we find something cool we can even name the exploratory site! If all of this wasn't enough excitement for one expedition on our way back to Reykjavik we will take the Into the Glacier tour - jumping into a huge super truck which will drive us to the top of the glacier, over crevasses and moulins, and into a tunnel 120 feet under the glacier! This will be an amazing adventure, perfect for the diver, non-diver and snorkeler, with fun and excitement both above and below the water line!!

Price includes:

- Hotel accommodations for 10 nights in Iceland: 3 nights in Reykjavik, 2 nights in Lodges along the ring road, 4 nights in water front cabins in Akureyri, and a final night back in Reykjavik (all nights based on double occupancy).
