Blue Green Expeditions

Tasmania here we come! Explore the wonders of down under with Blue Green Expeditions and photo pro, Richard Salas. Richard is an accomplished underwater photographer and author of numerous books. He will join us in our journey to dive with one of the rarest fish in the world, the Handfish!. Tasmania is home of the Tasmanian Devil on land and amazingly rich marine life underwater such as weedy sea dragons, fur seals, and fish covered wrecks. On land you can enjoy pristine national parks, incredible historical sites, beautiful hikes and diverse wildlife. Whether you love marine life, intricate caverns, caves, walls, canyons or shipwrecks, Tasmania has something for you! You will enjoy 6 days of diving and 3 days of land tours!

Diving

We have two dedicated boats from EagleHawk Dive Centre that allow us to explore a wider selection of remote dive sites. Some of the possibilities include the Caverns and Arches of Waterfall Bay, the Wreck of the SS Nord, Hippolyte Rocks and 3 Sisters Rock. This is the best place in the world to dive with colorful weedy sea dragons, and playful Australian and New Zealand fur seals.
