Blue Green
Expeditions

Join Blue Green Expeditions on the ultimate exploration of Antarctica! We will honor Ernest Shackleton, the heroic polar explorer, by transiting the Scotia Arc including the Falkland Islands, South Georgia Islands (including Grytviken where he is buried), South Orkney Islands, Elephant Island, Detaille Island, and, of course, Antarctica itself. This adventure focuses on exploring new territory as well as incredible animal interactions and dynamic ice conditions. This trip is perfect for those with a thirst for exploration as we venture to virgin dive sites, tour historic and current research stations and more while seeing the best Antarctica has to offer. And at the best time of the year as well! This expedition will also cross the polar circle with the aim of discovering new dive sites and visiting Detaille Island. We will also have the world renowned photographer Becky Kagan Schott as our special guest. She will be conducting photo clinics on board as well. This unique adventure is the perfect way to see Antarctica - above and in the water!
