

# TIGER BEACH in the Bahamas

October 6-13, 2018

Spend the week with friendly and photogenic Tiger Sharks! And maximize your time in the water as well in comfort by staying on the Bahamas Master Fleet boat. This is a bucket list trip with BIG animals. Tiger sharks can grow to over 16 feet long! Tiger Beach is known

worldwide as the epicenter of tiger shark diving! At Tiger Beach you get to dive with many different species of sharks. Some of the marine animals you may encounter are lemon sharks, caribbean reef sharks, nurse sharks and goliath groupers. The powdery white sand and clear blue water make a spectacular background for diving with these majestic animals. In addition, we will visit other dive sites known for their shark encounters. After

diving, our guests can retreat to the luxurious accommodations and gourmet meals aboard The Bahamas Master. The Bahamas Master has 8 well designed cabins and guests can choose between three cabin types all with panoramic windows.
