

# God's Pocket

October 21 -28, 2022

Blue Green Expeditions is headed to the best diving in British Columbia and in our opinion the best cold-water diving in the world! We start our trip in Vancouver then venture to Gods Pocket Dive Resort for some amazing truly stunning diving. Diving God's Pocket is pristine, remote, with some of the most amazing scenery in the world. Here we will get to see giant pacific octopus (GPO), nudibranchs, wolf eels, rockfish, anemones, shrimp, and endless amounts of underwater marine life. Top of the bucket list is the GOP and God's Pocket rarely disappoints. Another favorite is the Puget Sound King Crab and finding one on an endless wall covered in layers and layers of life is breathtaking. This is one amazing trip that you don't want to miss!

God's Pocket has some of the best 'little things' that make this dive resort a huge thing. Heated cabin floors. A drysuit room with an undergarment drying/heating closet. Some of the best food ever served morning, noon, and night and homemade and amazing snacks after every dive. And the best feature rarely found; an elevator that will whisk you back on the boat in under 10 seconds with zero effort on your part. It is just one part of this trip you'll never forget!

## Price Includes:
