

# Iceland

Total Solar Eclipse!

August  
10-20,  
2026

STARTING  
\$5700  
PP/DO

Silfra, at the top of snorkelers' & divers' bucket-list! And add to that being in the path of totality for the 2026 total solar eclipse on August 12, this adventure is not to be missed.

Iceland has it all, from unique dive sites to amazing scenery, we will hike, dive, explore, soak in hot springs, visit an active volcano, and enjoy the local culture. In Silfra, dive or snorkel between two continental plates in the purest water in the world with up to 100m visibility. We can even do a night dive in Silfra! This unique diving tour of Iceland combines dazzling underwater experiences and breathtaking land excursions, as well as being timed perfectly for the 2026 total solar eclipse.

Our explorations will take us from the capital of Reykjavik to the Golden Circle tour, exploring some of Iceland's most amazing waterfalls and geothermal areas. Our tour will include a Glacier hike, Black Beach, glacial lagoons, amazing waterfalls and pristine landscapes. As we approach the north, we will see geysers, look for trolls, and enjoy a spa visit.

Dive a hydro thermal vent, see the chimney and photograph the incredible life attracted to this ocean oasis. Around Akureyi, dive a shipwreck and do some exploratory diving in the Fjord. On our way back to Reykjavik we will jump into a huge super truck which will drive us to the top of the glacier, over crevasses and moulins, and into a tunnel 120 feet under the glacier! This is an adventure for divers, snorkelers and land lovers!
