

# Isla Mujeres, Mexico & Whale Sharks

July 17 - 22, 2017

Starting at: \$1,350.00

*Based on double occupancy*

## Imagine long encounters with dozens of WHALE SHARKS ....

Rising out of the sparkling Caribbean Sea, just off the coast of Cancun, Isla Mujeres radiates a unique natural beauty. Known as "The Island of Women", this area was named by the Spaniards because of its feminine forces of nature. The island is acknowledged for its charming setting and exotic sea life.

Swim with the magnificent whale shark in the beautiful turquoise waters of the Caribbean Sea. The world's largest species of fish, with their impressive size, create a visual spectacle as their dark grey bodies glide through the water. While swimming with these wonderful animals, you may see hundred pound sea turtles, manta rays up to twenty feet and three species of dolphins, entertaining you with their playful swimming and corkscrew jumps.

While on land, discover the natural beauty of Isla Mujeres by foot, golf cart or moped. Experience an array of optional island activities; visit the Sea Turtle Farm, the Mayan Observatory and temple, swim with dolphins, kayak above the reef, or zip-line off the 42-foot tower and zoom pass the cliffs and waves. You will not be disappointed with your island excursion.
