

Kalimaya, Indonesia

October 11-21, 2025

Join Faith Ortins for a unique land-based dive trip to Indonesia! We will be headed off the beaten path to the beautiful Kalimaya Dive Resort, where we've booked the entire resort! The resort is tucked away on its own private bay in the heart of some of the best diving in Indonesia. Located in East Sumbawa, it is an easy flight from Bali to this little slice of heaven! The diving here is spectacular and there are three distinct types of diving: muck, current and coral. The house reef has amazing muck diving. The sandy ocean bottom is filled with weird and wonderful critters that are unique to this ecosystem. We can find frogfish, candy crabs, bobtail squid, numerous species of nudibranchs, wunderpus, and many other bizarre critters. We will also venture to the currents of West Komodo for the big pelagics! Here we can see Black-tip, White-tip and Grey reef sharks, manta rays, eagle rays, and schooling tuna and jack fish! Beautiful reef fish and turtles can be found amongst the gorgeous coral gardens. Topside we will visit Komodo island. The Komodo dragon is the world's largest lizard and is found on Komodo Island. These lizards can grow as long as 10 feet and are a sight to behold! Add-on Bali excursions can be arranged.
