

Malddives

Northern Atolls

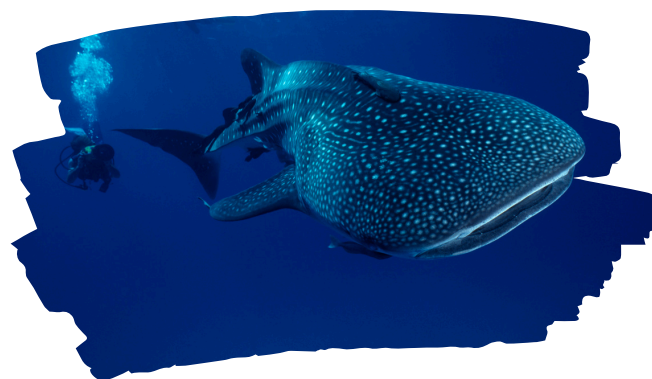

Sept 3-17, 2028

Discover the magic of the Maldives on our Northern Atolls adventure, perfectly timed for unforgettable encounters with whale sharks and large manta ray aggregations. Journey through the stunning Baa Atoll and into southern Raa Atoll, renowned for its abundant thilas (submerged islands) and vibrant marine ecosystems. Dive among caves, overhangs, and coral-rich slopes teeming with reef fish, sharks, turtles, Napoleon wrasse, and stingrays. From colorful nudibranchs and sea fans to octopuses and crustaceans, every dive reveals something extraordinary—especially during September and October, when manta rays gather in impressive numbers for truly breathtaking experiences.

Package
