This amazing resort is located in the midst of one of the richest most biodiverse coral reefs on the planet. You can expect to dive a diverse selection of sites, including a busy manta cleaning station, coral covered walls, reef flats, swim throughs, gentle sea mounts, drift dives, vast hard-coral gardens, placid lagoons, and current-raked pinnacles. All of the dive sites are protected by the Misool Marine Reserve. There is plenty of activities for non divers also such as cultural visits, spa treatments, kayaking and paddleboards!

Proceeds after costs from the trip will be donated to the OWUSS and BSR in order to further their mission. A portion of each trip is also donated to the Misool Foundation to further the protection of the reefs and marine animals in the park as well as work with local villagers to promote sustainable fishing and use of resources.
