

Philippines June 6th-19th, 2019

Join Blue Green Expeditions aboard the majestic Philippine Siren for an amazing 13 day adventure to the beautiful dive sites in the Sula Sea. We will board the Siren in Puerto Princesa and travel on this luxurious yacht eventually ending up in Cebu. We will be able to do 46 dives including night dives and experience an amazing variety of marine life. We will begin in Tubbataha which is only accessible by

liveaboard due to its remote location. This area is listed as a UNESCO World Heritage site.

At Tubbataha, vertical walls and dramatic drop offs provide for the Philippines best big fish diving! You can expect to see large Napoleon Wrasse, Bumphead Parrotfish, White tip and Grey reef sharks and the occasional Hammerhead, Tiger or Whale Shark! On our journey back to the main part of the Philippines, we will explore less frequented areas on our way to the Visayas region which is best known as a critter hotspot. You can expect to see frogfish, seahorses, mandarin fish, nudibranchs and much more. There are also wall sites which attract schooling sardines and is a mecca for hawksbill turtles. The calm seas and diversity of marine life make the Visayas an ideal diving destination. This unique trip allows you to dive the best dives sites of the Philippines in one incredible journey!
