## Sea of Cortez

With the Rocio Del Mar | September 23-October 5, 2017

### EXPEDITION OVERVIEW

Jacques Cousteau and John Steinbeck saw the magic that the Sea of Cortez has to offer. Jacques Cousteau called the Sea of Cortez "the worlds aquarium." John Stienbeck wrote "The Log of the Sea of Cortez" a journey through a remote and beautiful corner of the world, a diary filled with the daily excitements and triumphs of skillful and energetic men. It is also an invitation to see the world anew from a fresh vantage point and perhaps with a broader and more understanding spirit. Dolphins, sea lions, pilot whales, humpback whale, blue fin whales, orca and sperm whales. Flying mantas, blue and brown footed boobie birds, cormorants, frigate birds and the endemic yellow footed gulls.

The bio-diversity between the Northern and Southern Sea of Cortez is incredible. Diving the entire Baja is spectacular. The sea life we witness on the surface from the boat, dingy or snorkeling is fantastic.
