Welcome aboard Nautilus' luxurious and ISM safety certified ships. Their crew of men and women from around the world love the ocean as much as you do. Join us for incredible big animal encounters with the bonus of stabilized modern steel ships, spacious staterooms, hot tub and great food.

Bait ball season! Socorro is all about amazing interaction with our favourite giant mantas. No other mantas in the world behave like this. Research indicates that there are more giant mantas and more biomass at Socorro during bait ball season than any other time of year. Everything intensifies with more sharks - including schooling silky sharks - schooling hammerheads, whale sharks, lots of tuna and other pelagic fish and even pilot whales.

Please contact your local DVI dealer and then Faith (Faith@dui-online.com) or Paul Holbrook (phdive17@yahoo.com) if you are interested so we can hold your spot or if you have any questions.
